ABOUT ULTRACHEM

Building Infrastructure with Consistency

UltraChem Infra Solutions Pvt. Ltd., headquartered in Nagpur, Maharashtra, is a professionally managed construction chemicals company delivering high-performance, technically advanced, and cost-efficient solutions for modern infrastructure and building projects across Nation.

Backed by over 10 years of industry leadership and technical management experience, UltraChem specializes in enhancing the durability, structural integrity, waterproofing performance, and service life of concrete structures.

We operate with a solution-driven approach - combining quality-controlled manufacturing, technical expertise, and on-site support - enabling us to serve government departments, infrastructure contractors, industrial developers, and leading construction companies. UltraChem is committed to contributing to India's growing infrastructure through reliable, performance-oriented construction chemical system .

VISION

To become a leading and trusted construction chemicals brand recognized for quality excellence, consistency, technical innovation, and long-term performance across infrastructure and building sectors

MISSION

To deliver superior-quality construction chemical products built on research and performance standards

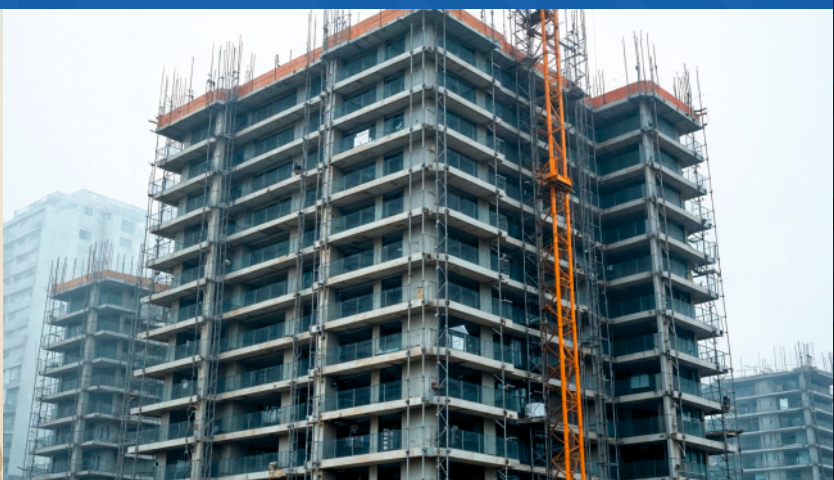

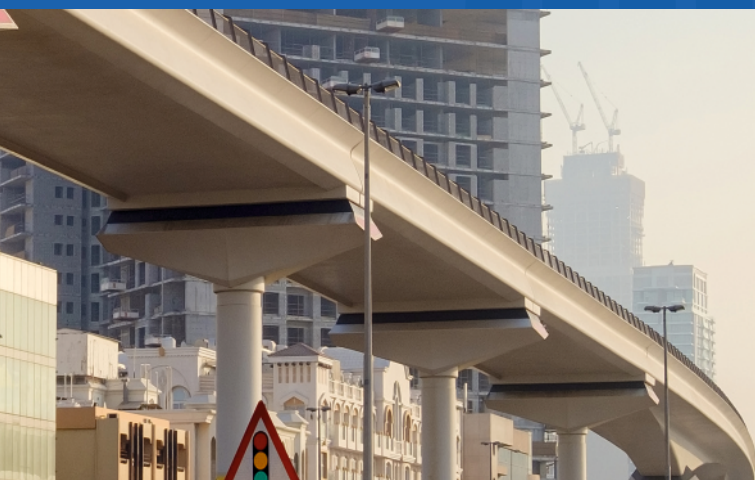

CORE COMPETENCE

Engineered for Real Site Challenges

UltraChem focuses on performance-enhancing chemical solutions for

- Concrete durability enhancement
- Waterproofing and moisture protection
- Corrosion protection of reinforcement steel
- Structural life extension systems
- Repair and rehabilitation solutions
- Compatibility Engineering

Our products are engineered to address real site challenges such as permeability, shrinkage cracking, corrosion exposure, harsh weather conditions, and aggressive environmental effects.

PRODUCT PORTFOLIO

✓ Concrete Admixtures

High-performance admixtures designed to improve workability, optimize setting time, enhance compressive strength, and ensure consistent concrete quality in demanding projects.

✓ Corrosion Inhibitors

Advanced solutions that protect reinforcement steel from chloride-induced and environmental corrosion, significantly increasing structural service life.

✓ Joint Sealants

Durable, flexible, and weather-resistant sealants suitable for expansion joints, industrial flooring, façades, and infrastructure structures.

✓ Crystalline Waterproofing Systems

Integral waterproofing admixtures that react within concrete to form insoluble crystals, permanently blocking capillaries and micro-cracks for long-term water resistance.

✓ Curing Compounds

Efficient curing systems that reduce water evaporation, minimize shrinkage cracks, and promote proper hydration for optimal strength development.

✓ Comprehensive Waterproofing Systems

Systems designed for terraces, basements, foundations, podium slabs, water tanks, wet areas, and other moisture-prone zones

Other Range of Products Like Microsilica, Steel & PP Fibers , Paints & Coatings, Road Markings & Road Furniture Etc.

INDUSTRIES SERVED

UltraChem solutions are trusted across:

- Government Infrastructure Projects
- Highways & Expressway
- Bridges & Flyovers
- Metro & Rail Projects
- Ports & Shipping Projects
- Airports
- Canal & Irrigation Projects
- Industrial Structures
- Commercial & High-Rise Buildings
- Residential Projects
- Water Retaining Structures
- STP / WTP Facilities

TECHNICAL SERVICES & SITE SUPPORT

Performance Beyond Products

We ensure correct selection, correct application, and correct performance.

- On-Site Technical Assistance
- Mix Design Support
- Product & System Recommendation
- Application Supervision
- Site Diagnosis
- Performance-Based Solutions
- Quick Professional Response to Technical Queries

Our approach ensures optimized performance, cost control, and long-term durability of concrete & Structures.

QUALITY ASSURANCE

Consistency is Our Foundation

Quality forms the foundation of UltraChem's operations

- Strict Raw Material Inspection
- Controlled Manufacturing Processes
- Batch-Wise Quality Testing
- Pre-Dispatch Performance Validation
- Compliance with Industry Standards

We aim to deliver consistent, reliable, and performance-certified products for demanding project environments.

DIRECTOR'S MESSAGE

At Ultrachem, consistency is our strength.

In construction, there is no space for uncertainty. That is why every product is precision-engineered, rigorously tested, and built for unwavering performance - every batch, every project, every time. Your reputation stands on every structure you create. Our consistency ensures it stands strong. We don't just supply construction chemicals. We deliver performance you can depend on - every time.
